

**CRITERIA # 11 Relationship to other supportive Institutions (Research or Education)**  
**Weight: 3**

**Assessment Definition:** The Facility should locate in an area where other supporting institutions are within reasonable proximity, such as houses of worship, long term care facilities, hotels, medical, clinical and allied health education and research facilities, etc.

- Scale Factors:** Site is located within:
- "10": Within 5 km of other supportive Institutions
  - "7": Within 6-10 km of other supportive Institutions
  - "5": Within 11-15 km of other supportive Institutions
  - "3": Within 16-20 km of other supportive Institutions
  - "1": Further than 20 km away from other supportive institutions

	Vendor Response	Stantec Response	Notes	Scale																																																																																	
Site A	Given the sites central location on the City's southern boundary, easy access is available to the University of Windsor, St. Clair College, numerous Churches, and several Long Term Care Facilities. The Site is in within 6-10 km of a large number of other supportive institutions as well. See Attachment 11.

Site C	The subject site is in close proximity to houses of worship, long term care facilities, hotels, medical, clinical and allied health education and research facilities (See Figure 11)																																																																																				
Site D	Facilities such as houses of worship, long term care facilities, medical and clinical facilities already exist in the nearby built up urban area. Lodge is a long term care facility in Essex Centre having a total of 56 private rooms. An adjacent vacant property is zoned for a hotel and other lands nearby owned by the proponent and others are available for development as part of a health-centric campus. Adjacent to the offered parcel are lands specifically nominated for the development of a hotel. See figure 4 for relative distances to places of worship and schools.																																																																																				
Site E	The site is located within 5km of other supportive institutions. Refer to Appendix C - Supportive Institutions Distance Chart. This response is applicable to all three (3) parcels of land that form the subject site.																																																																																				
Site F	The majority of supportive institutions are within 11-15 km of the Site. Please See Tab "10"-Distances to Supportive Institutions.																																																																																				
Site G																																																																																					

**CRITERIA # 11 Relationship to other supportive Institutions (Research or Education)  
Weight: 3**

**Assessment Definition:** The Facility should locate in an area where other supporting institutions are within reasonable proximity, such as houses of worship, long term care facilities, hotels, medical, clinical and allied health education and research facilities, etc.

- Scale Factors:** Site is located within:  
 - "10": Within 5 km of other supportive institutions  
 - "7": Within 6-10 km of other supportive institutions  
 - "5": Within 11-15 km of other supportive institutions  
 - "3": Within 16-20 km of other supportive institutions  
 - "1": Further than 20 km away from other supportive institutions
